More are Added To Draft List

Seven additional registration cards received last evening at the local draft board gives 2905 as Flathead county's highest serial number, with the possibility that the number may go yet higher with the receipt of further belated cards. Persons between the ages of 21 and 36 years were given up to October 29 to register if they had failed to register on October 16.

With the lottery drawing at Washington completed, an official list of master numbers is expected to be received at the local board office within the next few days and order numbers will then be assigned to each registrant.

Questionnaires, from which classification of the registrant will be determined, will probably be mailed out this week.

The official list of order numbers will be posted at the draft board office in the Chamber of Commerce as soon as they have been established. Ellis S. Dickey, clerk of the board, said.

Serial numbers assigned to cards received last evening were as follows:

- 2899 Vernor Curtis Chagun.
- 2900 Robert Marion Putman.
- 2901 Simon Morris Golden.
- 2902 Melvin George Hayes.
- 2903 Russel Harold Peterson.
- 2904 Lewis Winfield Dorrah.
- 2905 Dudley Henry Beaven.

Master List for Draft Received By Local Board

The local draft board late Saturday received the master list of draft numbers from state headquarters and Sunday and today Chief Clerk Ellis S. Dickey has been checking local registration numbers to establish the list of order numbers for all Flathead county registrants.

It will take several days, however, before the list of order numbers can be completed. No instructions have yet been received regarding the issuance of questionnaires, but Mr. Dickey stated they would not be sent out until after the order number list has been completed. Questionnaires will be sent out at the rate of 50 each day. No order numbers will be available, Mr. Dickey said, until the list has been completed and posted on the bulletin board at the Chamber of Commerce.

Four additional serial numbers were assigned over the week-end for cards received here Saturday and Sunday. The new serial numbers are:

2906 William Charles Lentz, Jr.
2907 Milton Willard Evans.
2908 Walter Clarence Towles.
2909 Earl Alexander Powell.

DRAFT NUMBERS

Following are the names and serial numbers of men called in the draft including order numbers from approximately 1180 to 1400.

Due to an error in transmission it became impossible to determine the exact order number after 1100. For this reason they are now being given in groups of 100, which will enable the drafted man to determine approximately the order in which his name will be drawn. However, it is to be remembered that this will not correspond with the order numbers finally fixed by the local draft board, after exemptions have been made for various reasons.

DRAFT NUMBERS

Following are the names and serial numbers of men called in the draft including order numbers from approximately 1180 to 1600.

Due to an error in transmission it became impossible to determine the exact order number after 1100. For this reason they are now being given in groups of 100, which will enable the drafted man to determine approximately the order in which his name will be drawn. However, it is to be remembered that this will not correspond with the order numbers finally fixed by the local draft board, after exemptions have been made for various reasons.

State Draft Board Makes Change in Call to Service

A revised order from state headquarters to the local draft board late Saturday set Flathead county's quota for the first call under the selective service act as nothing, making the first real call for the county to come sometime during the first part of December, according to Chief Clerk Ellis S. Dickey.

The order came after it had originally been announced that Flathead county's quota would be three men in the first call.

Fifty additional questionnaires were mailed out this morning by the draft board to registrants to determine their classification. The questionnaires must be returned within five days.

Mr. Dickey this morning pointed out that persons registered with the board who wish to volunteer for one year's service can do so at his office, but stated that enlistment through the regular U. S. Army recruiting office would be for a three-year term.

Following are the volunteers who have applied at the local draft board for one-year training service and whose order numbers will be advanced ahead of others if they qualify for military service:
